## SCHOOL REPORT.

---

### REPORT OF THE SUPERINTENDENT OF SCHOOLS FOR THE YEAR ENDING JUNE 30, 1922.

#### *To the School Board and Citizens:*

I herewith submit my tenth annual report of the schools of Allentown.

There were maintained during the year two schools for a school year of 36 weeks. The State Program of Study was well carried out.

It is the earnest desire of every patriotic citizen, and the duty of the school board and superintendent to see that every school in Allentown shall be a good school, furnishing an opportunity to each boy and girl of obtaining a good and wholesome education.

That this result may be accomplished, the following requirements must be maintained:

a. Each school must be taught (not kept) by a thoroughly trained, efficient, happy and well-paid teacher.

b. The school plant must be sanitary, healthful and pleasant; with adequate toilet facilities; with comfortable heating and ventilating arrangements; with desks and seats adjusted to the children for comfort and health, and with ample text books and supplies.

c. Parents and citizens must be actively interested and willing to co-operate with the teacher in her work. Unfriendly criticism of a teacher in the presence of a pupil is an obstacle in the advancement of the pupil.

#### HEALTH.

A careful examination of the pupils was made during the year by Health Inspector Doctor B. L. Freeman.

The work of Doctor Freeman was carefully followed up by the school nurse, Miss Clara Benoit.

Miss Benoit worked earnestly and faithfully, and under her direction many of the children received benefits that they would not otherwise have had.

The results of her skilful service justify the employment of a school nurse.

In conclusion I express my appreciation for your hearty co-operation and assistance.

Respectfully submitted,

HENRY S. ROBERTS.

### MUSIC.

*Mr. Henry S. Roberts, Superintendent of Schools of Allentown, N. H.:*

In reviewing the work in music from September, 1921, to June, 1922, I feel that we have improved in the direction of better tone production and in sight singing; also in written work. Whenever possible, we have correlated music with drawing, penmanship, geography, history and English—yes, even with arithmetic.

All the special days and the seasons have been celebrated in song, and in written work, decorated greeting cards being made by all classes. The upper grades wrote original melodies for these occasions.

Every opportunity to aid in making better American citizens through the singing of patriotic songs is embraced, and one especially good program of patriotic music was given on Flag Day. I'm sure that the pupils who helped in the "Making of the Flag" (one particularly interesting number) will long remember the inspiration received.

A new feature of the year's work was a Musical Memory Contest. A list of standard selections had been learned by the pupils of grades five to eight by frequent hearing, and the final test was given in connection with the Flag Day exercises. The prize—a copy of *Stories of Great Musicians*—was won by Mabel Dayton.

Not all of us can be performers and few will be composers, but all can become intelligent listeners and thus increase their capacity for the enjoyment of the highest of the arts.

The following is not the suggestion of a professional musician, but of the world's foremost inventor, Thomas A. Edison, whose discovery of the principle of the phonograph has revolutionized music preservation: "All women's clubs should join in a campaign to urge all mothers to have each of their children taught in the home (or, if too poor, at public school) some musical instrument so that America may become 'the land of music' from which shall spring composers of surpassing genius."

Not many years ago, music in the public schools meant singing, exclusively, and while that branch is still the only one taught in Allenstown and in the majority of schools (and when it was introduced many thought it an unwarranted intrusion on the three R's), everything points to a more liberal recognition of music, including the teaching of piano, and of band and symphonic instruments.

If Allenstown is to keep its place in the march of progress, such study will eventually be introduced. Your supervisor is constantly urging the boys particularly, to study the band and symphonic instruments.

I wish to thank Mrs. Wattles, the principal, for her unflinching interest and enthusiasm, and Miss Merrow, the teacher of the lower grades, for without their splendid co-operation, my efforts would be futile. Assuring you of my appreciation of your support and encouragement I respectfully submit this report.

MARTHA F. GALE,  
*Music Supervisor.*

## MEDICAL INSPECTION.

SUNCOOK, N. H., February 1, 1923.

*Mr. Henry S. Roberts, Superintendent of Schools.*

DEAR SIR:—

Below is submitted the report of medical inspection of the pupils attending school in the town of Allenstown, for the school year 1921-1922:

Number of pupils examined,	39
Defects found,	35
Defective vision,	1
Pulmonary (suspicious),	4
Anemia,	2
Orthopedic defects,	5
Defective teeth,	10
Diseased tonsils,	10
Adenoids,	3

The above report is more gratifying than any yet given. I feel that more has been done toward the correction of defects than in any previous year. The *correction* of defects depends entirely upon the parents. I firmly believe that the above results are in a great measure due to the follow-up work of the school nurse.

Respectfully submitted,

BENJAMIN L. FREEMAN.
